X86 Internet Exchange (IX) & Cloud Extend Service

Layer 2 connectivity service to remote Internet Exchange (IX) and cloud service providers through our cost-effective setup, without the needs of physical infrastructure setup to respective providers.

Peer with confidence

- Scalable bandwidth from 100Mbps to 10Gbps over 1/10G Port.
- Connection to 32 IX's such as MYIX, AMS-IX, DE-CIX, SG-IX, Equinix-IX, HKIX & many more!
- Easy access to domestic IX's, world's popular Internet Exchange & cloud service providers.

and many more!
